CNC 1325

CNC CUTTING MACHINE AND ENGRAVING MACHINE

PRODUCT CONFIGURATION

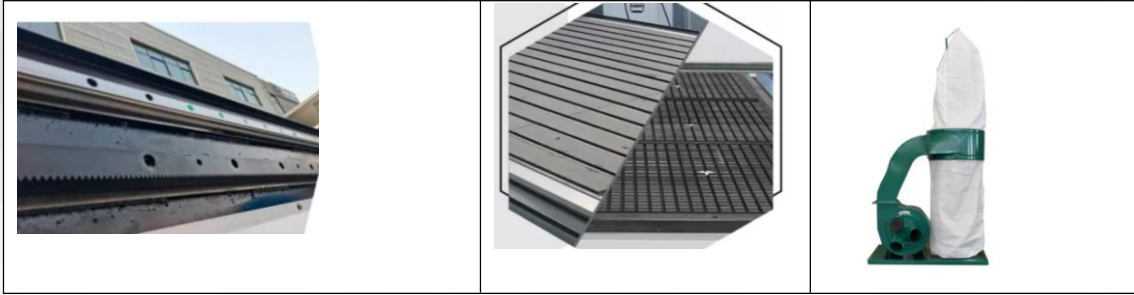

Quotation

Model	X5 1325
Optional	Water Spindle power 5.5KW 0-24000RPM
Main configuration	Aluminum Profile Counter Top Taiwan PMI guide rail and sliding block Auto oil feeding system Chiller CW3000 Control system:WEIHONG NK105 hand keyboard controlled Leadshine servo motor and driver Bed structure:welded steel Z AXIS travel:200MM 1300*2500mm working area Max travelling speed:25m/min Max working speed:20m/min Maximum feed thickness:150mm Resolution:0.05mm Reposition accuracy: 0.1mm Command: G code* μ 00*, PLT* Operating Voltage: AC110-220V+-10%,50-60z Compatible Software:ARTCAM Windows XP10/7
Whole machine size	3070*2050*1480MM
Packing size & weight	1200KG
Applicable materials	Wood, aluminum board, plastic, density board, wave board, PVC, acrylic, crystal, light marble, and other nonmetal materials and light metal materials.
Warranty	One year warranty
Price	AED 46,000.00 + 5% VAT
Sales Term	FOB Dubai, forklift and other placement equipments need to be arranged by customer, also prepare all electrical connections

PMI Precise Linear Guide

Equipped with Taiwan PMI rail guide, with features of high positioning accuracy, strong load bearing and good dynamic performance.

<p>Rack and pinion Transmission power,long life, stable operation,and guarantee a constant transmission ratio.</p>	<p>Simphoenix Inverter</p>	<p>WATER SPINDLE 5.5KW</p>
		
<p>Oiling lubrication system Automatic oiling system, easy to operate low price,make the whole machine work smoothly</p>	<p>WEIHONG NK105 control system</p>	<p>Leadshine servo drive and motor</p>
		
<p>Square rail Using imported straight square rail,it has bearing gravity,smooth operation, high precision and long lifepan.imported ball screw with high precision,lower knife precision.</p>	<p>T-Slot table+Flume platform Rigidity and strong body stable table structure popular exterior design.</p>	<p>Optional: DUST COLLECTOR ONE SET (1000DHS PIPE+ COVER+MACHINE)</p>
